Course bibliography

J. F. A. Madeira

ISEL — Department of Mathematics

How to use this bibliography

- **Main bibliography** (3 books): the starting point for studying the material.
- **Supplementary bibliography** (7 books): for going deeper into a topic; you are not expected to read them all.
- **Course resources**: the lecturer's theses (the first in Portuguese) and the papers on the GLODS, DMS and MultiGLODS methods.
- **Student projects**: internship reports at Tecmic and IST theses that apply course methods to real problems.
- **Other references**: the original sources of the methods and results cited in the slides.
- Each deck ends with a “References and resources” page with 2–4 references on the topic; in parentheses, in grey, the decks where each reference is used.
